TECHNICAL & SOFT SKILLS
Strong: Agile, JIRA/Confluence, Scrum, Task Prioritization, JavaScript, Python, MySQL, AWS
Experienced: Process Improvement, APIs, IT Networking, Scheduling, QA, GCP, Artificial Intelligence

---

PROFESSIONAL EXPERIENCE

CyberCoders - *Product/Program Manager Consulting*   Remote | 8/19 – Present

Keybank - *Technical Product Manager*
- Lead & execute project plans with Agile JIRA resulting in 10% more customers for loan programs.
- Created new features from business requirements and user feedback resulting in $2 million revenue.
- Implemented user retention metrics and KPIs using SQL queries retaining 80% of users to app.
- Lead QA and bug triage processes with Scrum catching over 40 critical bugs.
- Managed multiple stakeholders streamlining communication improving teamwork efficiency by 10%.

Bayer - *Technical Program Manager*
- Guided stakeholders productionizing results of two A.I. products to 1000+ users.
- Led Scrum improving efficiency and documentation to finish team weekly tasks faster by 15%.

GITAI Incorporated - *Full Stack Software Engineer*   Tokyo, Japan | 5/18 – 5/19
- Managed and developed web servers to monitor robotic data to improve team task efficiency by 10%
- Built web service infrastructure with Python, JavaScript, Django improving app availability by 5%.
- Optimized website performance with database optimizations reducing website load time by 20%.
- Implemented continuous integration with TravisCI grasping 30% more bugs for the engineering team.

Moov Incorporated - *Technical Product Manager*   Beijing, China & San Mateo, CA | 12/14 – 4/17
- Led 20+ people product team with software developers in Scrum launching 6 major products for an eCommerce artificial intelligence wearable selling to 10,000+ customers.
- Implemented A.I. machine learning swim stroke features causing 100+ app reviews that were 5 stars.
- Launched mobile SDKs with iOS and Android for developers adding 10% more customers.
- Created completion metrics, and roadmaps with JIRA improving product team task completion by 20% .

Sensors Laboratory (Thomas Kenny Group) - *Research Assistant*   Stanford University | 9/12 – 12/14
- Managed group lab IT infrastructure aiding lab productivity in getting 10% more tasks done.
- Co-authored 8 papers in sensors on modeling and simulation resulting in 2 conference presentations.

Booz Allen Hamilton - *Operations Program Manager*   Kabul, Afghanistan & Arlington, VA | 6/09 – 6/12
- Led operations to a Defense Advanced Research Projects Agency (DARPA) Forward Cell team in Afghanistan launching 10 high priority programs resulting in 5 new programs created.
- Accounted for $28 million DARPA technology projects in Afghanistan saving $6 million in logistics.

United States Air Force Cost Analysis Agency (AFCAA) - *IT Analyst*   The Pentagon | 3/08 – 6/09
- Constructed regression forecasting tool with SQL and Excel improving teamwork efficiency by 15%.
- Estimated 200,000+ aircraft flying hour rates with SQL and data analytics saving Air Force $4 million.

EDUCATION
MS Mechanical Engineering, Robotics	**Stanford University**	9/12 - 12/14
MS Electrical Engineering, Embedded Systems	**Johns Hopkins University**	9/08 - 05/10
BS Industrial Engineering, Operations Research	**Pennsylvania State University**	9/02 - 12/07

CERTIFICATIONS
Product Management Course	**Thinkful**	10/19 - 1/20
Advanced JavaScript Immersive Course	**Code Chrysalis**	1/18 - 3/18
